1 Garage Tasks

When you go into the garage, be prepared to get your hands dirty!

Changing the oil in your car

Once every 6000 kilometers or three months, change the oil in your car.

Changing the oil regularly will help keep the engine in good condition.

To change the oil:

1. Remove the old oil filter.
2. Drain the old oil.
3. Install a new oil filter and gasket.
4. Add new oil to the engine.
5. Check the air filter and replace or clean it.
6. Top up the windshield washer fluid.

Related concepts

Motor oil keeps your car's engine running smoothly.

[Windshield washer fluid](#) on page 8

Windshield washer fluid is required to keep your windshield wipers functioning properly.

Organizing the workbench and tools

Keep your garage neat by organizing the things you keep in the garage.

Shovelling snow

Keep your driveway and sidewalks clear of snow and ice by shovelling after any snowfall.

1. Get the shovel out of the garage
2. Shovel the driveway, starting at the garage door and working out to the street.
3. Shovel the sidewalk in front of your house.
4. Shovel the walk to your front door.

Related concepts

Use the snow shovel to clear the drive way and side walk of snow in the winter.

Spray painting

When paint is applied using a spray nozzle, it is referred to as spray painting.

The garage is a good place to spray paint.

1. Move the car out of the garage to avoid getting paint on it.
2. Place newspaper, cardboard, or a drop-cloth on the garage floor.
3. Place the object to be painted on the covered area.
4. Follow the directions on the paint can to paint the object.
5. Let the paint dry thoroughly before you move the object.

Related concepts

[Paint](#) on page 7

Paint is useful for refreshing the look of rooms and furniture.

Taking out the garbage

Regular garbage removal is necessary for the proper functioning of a home.

Your municipality collects garbage from homes once a week, usually early in the morning.

1. Find out from the town what day of the week garbage is collected in your neighborhood.
2. The night before collection, place the garbage cans on the curb.
3. After the garbage has been collected, move the cans back into your garage.

Washing the car

Keep your car looking great by washing it regularly.

1. Move the car onto the driveway.
2. Attach the water hose to a spout and pull the free end over to the car.
3. Fill a bucket with soapy water.
4. Use a sponge to apply the soapy water to the car and scrub off the dirt.
5. Rinse the car by spraying clean water from the hose.
6. Dry the car using a dampened chamois.

Related concepts

[Water hose](#) on page 8

A water hose is useful for cleaning and gardening projects around the yard.

2 Garage Concepts

A well-stocked garage can be the envy of the neighborhood.

Lawnmower

The lawnmower is a machine used to cut grass in the yard.

Lawnmowers can be electric, gas-powered, or manual.

Oil

Motor oil keeps your car's engine running smoothly.

Oil should be changed every 6000 kilometers.

Related tasks

[Changing the oil in your car](#) on page 5

Once every 6000 kilometers or three months, change the oil in your car.

Paint

Paint is useful for refreshing the look of rooms and furniture.

Store unused paint in the garage.

Related tasks

[Spray painting](#) on page 5

When paint is applied using a spray nozzle, it is referred to as spray painting.

Shelving

Wooden or metal shelving is useful for storing things in the garage.

Shelving also keeps things neat and organized.

Related tasks

[Organizing the workbench and tools](#) on page 5

Keep your garage neat by organizing the things you keep in the garage.

Snow shovel

Use the snow shovel to clear the drive way and side walk of snow in the winter.

A good snow shovel has a straight, wide scoop and a strong handle. To help snow come off the scoop, spray the scoop with cooking spray.

Related tasks
